Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1, 3, 5-6, 8, 10-12, 16, and 18-20 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3, 5-6, 8, 10-12, 16, and 18-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Scifres et al. (US4280107) in view of Mifune et al. (US6324149).

With respect to claims 1, 8, 10-12, and 16, Scifres show in Fig.2 a semiconductor laser having a beam emitting facet 11 and a light emitting region 38 formed on the beam emitting facet 11. Scifres do not disclose a three-dimensional marker. Mifune teach a three-dimensional marker being a concavity or a convexity (protrusions and recesses) (col.13, l. 44-45). For the benefit of indicating the

location of the emitting region, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide Scifres a tree dimensional marker as taught by Mifune.

With respect to claims 3, 5, and 18-19, Scifres show in Fig.2 a light shielding film 18 covering the emitting region 38 and having a small opening 22.

With respect to claims 6 and 20, Scifres show in Fig.2 a dielectric film 16 between the beam emitting facet 11 and the light shielding film 18.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened

statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
